

STAT []

You asked that I mention this to you again today.

STAT []

[] called me regarding the task force report prepared for President Kennedy regarding State Department Operations Overseas and in Washington -- which we had received from John Sharon and then sent to DD/P to retain. Mr. Bissell's office passed this to [] since it is of interest to him. [] added that it would be of interest to [] and would be an excellent item for [] to have "in his library." In answer to [] query, I stated we had received only the one copy. I told [] I did not know how you would feel about our asking for another copy but that I would ask you and call him back.

STAT

I don't know if the distribution on these reports was limited but each did have a number on it so I assume Mr. Sharon's office has a record of where each copy went.
